## A Natural, Artistic Approach to Space Clearing.....

### Energized Suggestions:

#### Display

Your herbs may be placed in the center of your home or in an area you feel needs purification from negative energy.

*Leaves of Life*

#### Casting

A small amount of your dried herb combination may be crushed up and cast across the entrance to your home. They will cleanse all who enter and all who depart your sacred living space.

#### Burning

Using a charcoal disc in the heart of a fire resistant vessel or shell ... you may burn a small amount of your herbs.

#### Charging

Periodically, your Sea Salt and/or crystals need to be "cleared" of the energy they have absorbed and "charged".

*Salt of the Earth*

You may place your salt or crystals in the sun for four hours or in the full moonlight overnight.

### Nature's Gifts:

Anise · Cedar · Chamomile · Copal · Junniper · Lavender · Lemon Balm · Mint · Myrrh · Orange Peel · Patchouli · Rosemary · Rose Hips · Rose Petals · Sunflower · Thyme · Tonka Beans · White Sage · Yarrow

*\* All herbs are organic. Many are locally grown.*

### Leaves of Life:

Your vessel or sachet is filled with a special combination of dried herbs that will help breathe new life into your... Home...Family...or Workspace.

### Salt of the Earth:

Your vessel is surrounded by or filled with a sea salt and rice mixture.

The sea salt is a tool used for cleansing negative energy. The rice brings & promotes abundance.

### Healing Colors:

If you choose... Any combination of colors may be woven into your vessel to enhance the energy of the herbs.

### Words of Wisdom:

Words of Wisdom accompany your vessel. These words will help to ignite the purpose for which these combinations of herbs were created just for you.

Most glass vessels are unique in that they have been handpicked at various locations: garage sales, estate sales, antique shops, second hand stores. All vessels are purged of any previous negative energy. They are gently washed in a sea salt and warm water mixture, charged in the sunlight (Mother Nature permitting), and saged.
