Why a Floating Stage?

We have a vision at Floating Stage Productions. To revive communities, both culturally and economically, by “bringing the arts to the people. We want to create an oasis of family-oriented fun and lasting good memories, so important to people living in a troubled world. Our dream is to generate renewed community spirit and goodwill that puts energy and financial support back into communities.

Our vision is already a proven success:

- First concert attracted 2,000 people, but it has since become a regional attraction, bringing over 500,000 visitors annually.
- Concerts, arts and cultural events are provided to the public through ticket sales, community support, and private and corporate donations.
- The result has been increased economic development for the community, including more interest from visitors and local residents, brisk real estate sales, existing property upgrades, new business development.
- Generous collaboration of business and civic community leaders continues to enhance local pride and promote investment.
- Event-related spending studies show non-local audiences out-spend local audiences by a margin of 2 to 1.
- The number of jobs supported by non-profit arts are nearly equal to the number of U.S elementary school teachers.

How can Floating Stage Productions help you?

Our executive team provides you with core competencies in finance and management, e-business technology, operations management, solid entrepreneurial experience.
